NOTES REGARDING UTILIZATION OF 1970 VALLEJO CENSUS DATA FOR SPECIFIC TRACTS

The Bureau of Census experienced difficulty in reporting 1970 Census information for Vallejo. The original reported population for Vallejo was 66,733. Subsequently, the population figure was restated as 71,143, and finally certified at 71,700.

While the total population and number of housing units' figures were corrected, none of the other information contained in Census reports was changed to reflect the new totals. The resulting inadequacies are manifested in the accompanying tables as follows:

Tracts Showing Single * Asterisk. Data for these tracts have not been adjusted for minor census error. However, we believe this data to be representative of the tracts involved.

2511.	Data shown based on	96.2%	of correct population
2515.	" " " "	97.6%	" " "
2518.01	" " " "	86.1%	" " "

Tracts Showing Double ** Asterisk. Data for these tracts may not be representative as it is based on the following percentage of the correct population for the affected tract:

2508.	Data shown based on	43.5%	of correct population
2519.02	" " " "	141.9%	" " "
2519.03	" " " "	59.3%	" " "

Tracts with no information

Tracts 2501.02 and 2506.02 have a population of 4 and 32 respectively. Information is most often suppressed due to small sample base.

Tract 2505.01's original population was reported at 205, and corrected to 1513, resulting in an error from the original figure given of 738%. No information is released regarding this tract, as it is felt that any information based on so small a sample would be unreliable.

To conserve space, all census tract numbers as shown on the charts should be preceded by 25. For example, tract identified as 05.02 is tract 2505.02.

In many instances, the percentage figures of any given characteristic do not total 100% when added for the entire city of entire tract, whichever applicable. There is no way to adjust for these discrepancies since the percentage figures were calculated from absolute figures originally provided by the census.
